How to Block a Sender Using the Mimecast tab in Outlook

Eric Ruthenberg - 2023-04-13 - Comment (1) - General

1. Select the spam message you wish to block by clicking on it once.
2. Click the Mimecast tab at the top of the page.
3. Click the down arrow next to Block Senders.
4. Choose Sender's Address.

Hi IT team, I have a few spam emails. Do I just block these senders in Mimecast and/or send them to you guys? If I forward these to your team, how should I go about that? Thank you, Sarah sphillips@mspca.org
